

## Weekly Report

4/25/2016 – 5/2/2016

Li Zongzhuang

### Summary

This week I got some files about Knowledge Graph from Lin Ming. And began to learn about it. Another task about palantir is to read and learn the Google Knowledge Graph API. I read some chapter about it. I helped Zhang Tianye about her overview about Network Security in Monday also. Then I came to finish the preparing of my paper sharing. In Monday, I learned many from Professor Chen's teaching. Then I worked with my Graduation Thesis in the rest time. In the May Day, I got a fever.

### To do List

I will go on with all the uncompleted works. And I'm trying to finish the Graduation Thesis next week.
